

# Our people are our future – Unser Team ist unsere Zukunft

Maier Group is hiring a **Local Project Engineer** at its **Munich** office.

**If you're passionate about -technical role with constant customer contact in one of the most attractive and dynamic industries, if you like travelling and if you're fluent in German and English, this is your opportunity!**

Reporting to the corresponding Marketing & Sales Manager and the Group Projects Director, you will:

- Build, manage and lead solid relationships with our customers in all technical matters,
- Support project management, before and after SOPs.
- Seek for relevant information about projects and competitors
- Identify business opportunities

We're looking for professionals with a background in **Engineering, international experience in technical project management and sales**, and a **solid experience in the automotive industry**, preferably with Maier technologies.

At Maier we're strongly committed to the development of our people. Joining us means you can count on constant training on the job and interesting career opportunities. Ready for the challenge?

## Who we are

Maier Group with headquarters in the Basque Country, Spain, forms part of the prestigious Mondragon Corporation. We are European leaders in the decoration of plastics and manufacturer of complex injection mouldings for the automotive industry.

At sites in 11 countries around the world we specialize in chrome plating, painting, laser etching and hot stamping technologies for all major OEMs such as BMW, Audi, Daimler, GM or Jaguar Landrover.
